State bonds are very dull and generally unchanged in quotations. Louisiana 7s cousol, however, up I per cent. in the price bid, and Michigan 7s are 2 per cent. lower.

The stock market to-day has been less active, but has exhibited a strong undertone all day, The news this morning was all of a character faverable to higher prices. The settlement of the troubles of the different milroads west of Chicago was accepted as an assurance of better rates for a long time to come, and the bulls were correspond Ingly more confident. Unfavorable reports from Europe regarding the Anglo-Russian war russors, which were received on the street during the forengon also had a slight influence. The announcement, however, that there was a dectine of I percent, in British consols was found to be incorrect

cent, in British consols was found to be incorrect and was denied before 3 p. m

The activity in the afternoon was stimulated by the publication of a report that the East-bound rates from Chicago had also been fixed at fitteen cents per 160 pounds, which is a considerable advance over the rates at which freights have been coming forward of late, although it is below the last tariff rate. The bulls claim that all that is necessary to complete restoration of confidence and a very decided advance in prices is for the Vanderbilt and West Snore parties to settle their differences. Lackswanns continues to lead the active list, about one-fourth of the day's business being in that stock. Most of the loaning rates for use of the Lackswanns were made at 1 11-15, but use of the Lackawanna were made at 1 11-15, but in the afternoon the rate fell to 8-32. In the last hour the stock yielded a fraction, and closed with a net advance of 1%.

New York Central also shows a gain of 1% per

cent., the stock being conspicuous for its advance late in the day. The remainder of the active list is up fractional parts of 1 per cent., the market closing steady at or within fractions of the high-

Union Pacade was also active, and during the afternoon a decided effort was made to break the price by creating the impression that a large amount of long stock was being offered, but the movement was not successful. It is claimed by the friends of the company that the bonds held by the Union Pacific, which are to be sold to pay off the floating debt, will be taken by June 1. The contract between the Pacific railroads and Pacific Mail is also expected to be completed in the next

The total salse were 194,755 shares, and after ackawanna the most active stocks were Union Pacific: St. Paul, New York Central and North-western, in the order named The remainder of the list contributed only about 53,000 shares. The railway bond market has been active, the trading being well distributed, while there was some show of special activity in the Denver issues and about the usual amount of trading in Eric seconds, new. The wholesale trade is rather quiet yet there is a slightly better trade in all lines. Dry goods seem to be doing telerably well. Groceries are in fair demand and average firm. Dairy products still continue in a depressed condition. There is nothing new developed in dried fruits, canned goods or fish. Eggs remain unchanged.

GRAIN. Wheat-The feeling generally is dull, and inquirles are principally inspired by order demand, Arrivals continue meagre; sellers seemed more inclined to di pose o! stock at a shade less than quotations. Futures develop some sellers, but buyers show no desire to invest in forward deliv eries at present. Seaboard is generally weaker. New York being 1/c aff at noon, Baltimore 1/c off, with Chicago quoted as steady.

Corn-In local circles we note some signs of weakening, and quotations were 1/6/1/c lower than yesterday. Receipts only fair. Futures dull and not wanted. New York 1/4c lower; Baltimore

13/c off, and Chicago 3/c lower. Oats-Steady at quotations, with not much life

in local markets.
